Funding of the country as expected as source of money is not enough, so alternative choice of source of fund needed is through direct foreign investment. But this is not an easy way. A lot of problem faced. For instance, the inadequate infrastructures, the difficulty in procedure of getting permit, instability of political situation, unreliability of law to support and to protect which are usually block foreign investor. And also, those problems cause the foreign investor remove their investment to another country. Because of that, it needs a dealing to the problems so that the foreign investor interest to invest in Indonesia.</p> <p class="MsoNormal" style="text-align: justify;">Kata Kunci : Penanaman Modal Asing dan Pembangunan Ekonomi</p> <p class="MsoNormal" style="text-align: justify;">◆</p> <p class="MsoNormal" style="text-align: justify;"> </p> <p class="MsoNormal" style="text-align: center;"><strong>PERAN HUKUM DAN PEMBANGUNAN EKONOMI

**Abstrak**

This study examines the problems, the effectiveness of wiretapping (interception) on the Internet using a Web camera in the law enforcement of prostitution on line via video-conference. The aim of which is to gain the analysis of the effectiveness of wiretapping of the Internet using a Web camera in the law enforcement of online prostitution cases through a video conference on 17 years of age or older. For the purpose, data collection is done through the study of documents and interviews with Makassar Polwiltabes (Regional Police Office) investigators and the cam frog user. Furthermore, the data is processed and analyzed using qualitative analysis methods and are presented descriptively. The results show that the use of tapping, including tapping on the internet as a means of proof in cases of law enforcement of on line prostitution by the Makassar Polrestabes (Resort City Police Office) forces has not been effective, resulting in the proliferation of on line prostitution in Makassar. This is caused by a lack of expertise and skills of Makassar Polrestabes investigating authorities in mastery of the rapidly growing information technology today.
